6:02 PM – Start time

6:03– Opening Remarks

Approval of minutes

Doug moves to approve, Josh seconds

6:05 – Guest Speakers

- Officer Bart Stephens – NE precinct
  - Sharp increase in drive-by shootings
  - Mini Patrol teams are focusing on this + following up
    - Drones being used for birds eye view
    - Result has been some cold case arrests
  - Homelessness in the Logan
    - People camping in parking lot behind Hamilton Mart
    - A lot of this is occurring on private property, but alley itself is city property
    - No trespassing signs going up in alley, allows police to take action
  - Council members discussed how passive presence is helpful
- Jeff – STA (6:11)
  - Building on fall 2024 update
  - Division St BRT Overview
    - Refer to packet for powerpoint info
    - Coordinating w/ city and WSDOT
    - Buses switching to left side of roadway
    - Phase 1 = wanting to meet 2030 timeline for North/South Corridor
      - Couplet = south of Boone up to past N River (aka N Foothills), mainline to Hawthorne
    - Future Phases = build north of Hawthorne
    - Project Update
      - Generated video for every station along corridor
      - Working w/ FTA consultant to get ready for spring review
  - Project schedule
    - Construction – 2028-2030
      - Service change in September 2030
    - Looking ahead
      - STA's continued presence at Logan neighborhood meetings through Fall of 2026
      - divisionstbrt@spokanetransit.com

        - No impact of channelization of main road
- Karen Mobley – Spokane Arts (6:24)
    - Assisting STA with Division BRT
    - Unique station designs
        - Gather neighborhood stories/etc to use to inform designers
        - Garbage can wraps, design flags, and translucent design on glass planned
            - Different designs for every neighborhood
        - Existing example on Main + Division
    - Next Steps
        - Outreach = February-June 2026
        - Prospect + Artist Selection = July-September 2026
        - Art Development + Preliminary Design = September-December 2026
        - Design Feedback = Fall 2026
        - Art Development = final design winter 2027
        - Project completion = May 2027
    - Artists assigned to neighborhoods
    - Goal – end of March, neighborhood place statements composed
    - Spokane Arts FB page has survey w/ same questions as handout from meeting
        - Polly Ann to send out in newsletter

6:37 – Reports

No reports from Matt, Jim, or Sarah

- Josh – website is updated
- Doug – close to a year ago, comment on new parking requirements submitted to city council, official response not yet received
- Polly Ann
    - Portal for traffic calming feedback is open until 3/31
    - Spring learning series – 3/21 and 4/18
        - 4/18 is the equipment meeting
    - Spokane Neighborhood Leadership Academy
        - Summit in the fall – usually October
        - Looking like w/ GU
    - CE Grants – training mandatory / $850 to get signs, etc.
        - Free speed signs for yards
    - Mobile speed feedback signs = 4/13 deadline

    - Disposable passes – Spokane 311 portal
    - Residential Light Program
        - Second set of lights coming on Monday
    - Rentals need to go through verification
    - Neighborhood clean-up – recommendation for ease is to do this curbside (essentially an extra pick up of trash)
        - Roll-out requires more people
    - District 3 City Council Town Hall @ the MAC on 3/26 – topic is sidewalks

6:47 – Unfinished Business

- Vacating roles = clean up coordinator + secretary
- Logan Block Party
    - Tiffany
        - 10th year, goal is to bring neighborhood back into the fold
        - Typically 3rd Friday of semester but GU has several events on that day – guest services will be sparse on that day
        - Permit in our name, GU as partner
        - Guest/Plant Services provide tables, chairs, canopy, etc.
          Sodexo provides food for 800-900 people
          Neighborhood resources to have presence (Avista, etc.)
        - Usually there are inflatables, insurance doesn't allow bouncy houses
          Port-a-potties
          Cone of Ice truck was super popular
          Hoping for neighbor/resident input
        - Suggestion is to do the block party on 9/11
            - Would feel the same for residents
            - No clear city-wide conflicts on that day
            - Mission Park as location
            - PollyAnn has access to special events portal
            - Doug will attend next logistics team meeting
- Motion to plan the Logan block party for 9/11/26, dependent on no major conflicts and approval of permits
    - Doug moves to approve
    - Jim seconds
    - Unanimous decision
- PollyAnn will help Doug w/ application to hold at Mission Park
    - Special Event Permit / Equipment Closet
        - Sooner rather than later, next couple weeks

        - By next meeting, supplies/services booked
- Typically council tables at the event
- CEG Grant – if neighborhood wants to use $ towards block party, can, but deadline are tight – if used for the party, it would be added on top of what is already provided
- Postcards 4+ weeks ahead of cleanup – if it's close to the block party, double advertise (or send out save the dates sooner)

7:04 – New Business

- Spokane River Forum Parks & Rec – date unclear, appears 2027
- Boone/Sharp road vacate
    - Public road becoming GU property
    - GU becomes responsible for repairs/etc.
- Unknowingly lost nonprofit status
    - Need to assess goals in why we might want to renew this (or not)
    - Matt to still talk to GU legal
    - No requirement from city to have this
- Spring/summer event
    - Jim – no contact about petting zoo yet
    - West Central has accessible summer events that have been successful like PorchFest
    - Next year – easter egg hunt for dogs
- Speed Trainer / Road Improvements

7:11 – Open Forum

- Mackenzie (community member) – speeding in school zones a major concern in the area of Perry/Hamilton
    - A lot of foot traffic, including walking school bus, and two crosswalks on either side – here to ask for help
        - Traffic is primary coming from the west
        - Mackenzie and Matt to both submit to 311
- [Missed name] (community member) – additional concern about Morton St.
    - People use Morton to avoid the stoplight on Perry and are thus people are speeding or racing down it
    - A lot of children, UGM shelter families, no sidewalks
    - Off of Illinois, sidewalks aren't ADA accessible
- 2 or 3 spots on the application – just need to figure out placement
    - Matt will check out in person
    - City has been good about structural issues

- Jim – may be worth submitting comments to transportation commission – namely personal stories may have a different impact
    - Digital public comments
- Traffic calming measures lacking in Logan as a whole
- This is about what's observable, not just what's been reported
- Data is publicly available

7:26 PM – Meeting adjourned
