Minutes: It was M/S/P to approve the minutes from May 25th, 2016

Officer Update: Officer Redmon sent a written update that was presented by Nick Velis. The SPD has contacted most of the party houses prior to Hoopfest Weekend and they were letting them know that they would have a zero tolerance and extra officers patrolling the area that weekend.

Mission Avenue: Mark Melnick gave a presentation on an upcoming Mission Avenue project. It would be a grind and overlay project. There was discussion about moving the sidewalks to make it easier for pedestrians to cross the street around St. Als School. It was advised to look for the planning update to Cincinnati to make sure things were coordinated with a future update to the north south street.

Central City Line: Kathleen Weinand came to discuss the Central City Line which would connect Browne's Addition to Spokane Community College. They gave an update with the bench designs and how some neighborhoods would like more input. We would like to remain part of the conversation going forward with the design and updates.

GC: The block party is scheduled for September 1st and we are looking forward to it!

Respectfully submitted by Nick Velis LNO Board Member
